

## Press release

Girona, 30th April 2015

### **2014-2015 Snow Season. Girona's ski resorts close their slopes for the season with a positive balance sheet: 757,858 skiers.**

The five-month 2014-2015 season was one of the longest in recent years. The Masella ski resort closed out the season with 380,000 skiers (8% less than the previous season despite a 10% increase in foreign skiers), La Molina welcomed 265,798 skiers to its slopes, Vall de Núria registered 45,944 skiers, Vallter 2000 was visited by a total of 60,294 and the cross-country ski resort Guils Fontanera recorded 5,819.

Girona's five ski resorts rate the season as positive despite the economic crisis and the bad weather over the holidays, which prevented this year being a record season in terms of the number of lift tickets sold.
