

Press release

Girona, 12nd March 2015

Brand new beaches catalogue published in eight languages.

In line with its strategy to create new promotional material for the Costa Brava destination, the Costa Brava Girona Tourist Board publishes a catalogue that provides information on the sixty-seven beaches and coves that dot Girona's two hundred and twenty kilometres of coastline. The publication includes a selection of the Costa Brava from north to south, presented with a photograph, description and pictograms that provide useful information, such as the beach's length and width, natural surroundings, access to services (toilets, showers, restaurants, bars), sports facilities, services for the disabled and environmental certificates.

The 172-page catalogue also includes a chapter devoted to one-of-a-kind spots in the area recommended for enjoying activities that include music festivals, Vies Braves, exploring the coast's hidden corners by sea, as well as a map with all the beaches and the region's top tourist attractions.
